

## **UK Sport – Aspiration Fund**

A successful application by British Volleyball to the UK Sport Aspiration Fund, contributed significant investment towards the build of this project. One element of the bid included building connections between our British Beach Volleyball Performance athletes to the local community and we are very excited about initiating our ‘Athletes in Schools’ programme to achieve this.

**Ben Pipes, Chair of the BVF Performance Management Group,** led the application process and commented:

*“This has been a triumph of collaboration and dedication, destined to have an enduring sporting and societal impact. Lynne Beattie has been the driving force, taking the vision of delivering inland beach facility access to local communities and turning this into a reality; galvanising support and inspiring partnerships. With this project Scottish Volleyball and all partners have delivered an opportunity to connect and inspire the local community whilst adding to Scotland’s rich sporting landscape.”*
