

Clubhouse and Changing Rooms

One of the areas where children are particularly vulnerable at many sports facilities is the locker/changing/shower room. Limited changing facilities sometimes mean that people of all ages regularly need to change and shower during the same period.

To avoid possible misunderstandings and embarrassing situations, adults need to exercise care when in the changing room at the same time as children. However, bullying can be an issue where children are left unsupervised in locker rooms, and a balance should be struck depending on the situation. In general it is better if one adult is not alone to supervise in a locker room, and extra vigilance may also be required if there is public access to the venue. If, in an emergency, a male has to enter a female changing area, or vice versa, another adult of the opposite gender should accompany him or her.

The following advice may be useful:

- Wherever possible, adults should avoid changing or showering at the same time as children.
- Parents/carers need to be aware that on occasions, adults and children may need to share a changing facility.
- It is recommended that particular attention is given to the supervision of children aged 10 and under in changing rooms. It is advisable for adults not to be alone with any such child under these circumstances.
- If children are uncomfortable changing or showering in public, no pressure should be placed on them to do so.

While some organisations may be restricted to changing rooms for the purposes of team talks, if at all possible another area should be considered for this. If there are no other options, it is best practice to wait until all children are fully dressed.
